- Animal Hospitals*
- Stables*
- Pet Grooming Shops*
- Animal Transport Vehicles*
- Zoos & Animal Parks*
- Poultry Farms*
- Pig Farms*
- Dairy Farms*
- Livestock Facilities*

### DESCRIPTION

Kennel Care by ProVetLogic is a high performance, bacterial-enriched floor cleaner, odor eliminator, organic waste degrader and floor drain maintainer. It is recommended for use on kennel floors, stable floors, interior and exterior run surfaces, small and large animal cages, grooming area floors and animal containment area floors. No rinse is required. The unique chemistry provides bleaching action (without the bleach) that brightens surfaces as it cleans and leaves surfaces sparkling clean with a pleasant scent. Kennel Care is ideal for cleaning concrete, ceramic tile, quarry tile, grout, brick and rubber mats using either manual or mechanical methods. Inherent biological action continues to clean between regularly scheduled cleaning to help keep soil accumulations to a minimum. Caution: Do not mix or use this product with acid, alkaline, or product containing bleach. For use on floor only. Do not use on food contact surfaces.

### FLOOR CLEANING DIRECTIONS

May be applied with mop, brush, pump-up sprayer, foam gun, pressure washer or automatic scrubber. For Light Duty Cleaning and Floor Maintaining: Dilute 1 to 2 ounces of product per gallon of water. No rinse required. For Medium Duty Cleaning: Dilute 3 to 4 ounces of product per gallon of water. Rinse thoroughly with clean water. For Heavy Duty Floor Cleaning: Dilute 6 to 8 ounces of product per gallon of water. Rinse thoroughly with clean water. Apply product by spray, mop, sponge or mechanical applicator to surfaces to be cleaned. If necessary, agitate to help remove excessive soils. Rinse thoroughly with clean water as needed. These directions are flexible rather than specific. In many cases a more dilute solution can be used, while for extreme conditions a less dilute solution may be used.

### Synthetic Turf Cleaning Instructions:

Remove and discard solid waste. In a pump sprayer or hose end sprayer apply the solution at a dilution rate of 2 to 4 ounces per gallon of water. Apply a liberal amount of solution to the surface. Agitate the surface to remove any visible stains. Allow the solution to stand for 3 to 5 minutes (no more than 5 minutes). Thoroughly rinse surface to allow the solution to penetrate in to the substrate material.

### DIRECTIONS FOR TREATING FLOOR DRAINS

For Daily Floor Drain Maintenance: At the end of the cleaning procedure, direct the emulsified solution to floor drains using a rubber squeegee, synthetic brush or water pressure. Caution: Do not use a floor brushes or brooms made with natural fibers, or wood handles as these will harbor harmful bacteria. For the Treatment of Clogged Drains: Add 4 to 8 ounces of Kennel Care concentrate directly to the effected drain or drains and allow to sit overnight before rinsing with clean water. Repeat if necessary.

### PRODUCT SPECIFICATIONS

<b>Active Ingredients:</b>	15.0 ± 0.5%
<b>Color:</b>	Green, Slight hazy
<b>Odor:</b>	Fresh Linen
<b>Base:</b>	Detergent Blend
<b>pH:</b>	9.0 ± 10.0
<b>Viscosity:</b>	Water thin
<b>Foam:</b>	Moderate
<b>Abrasive:</b>	None
<b>Phosphate:</b>	None
<b>Solubility:</b>	Complete with water
<b>Emulsification:</b>	Excellent
<b>Detergency:</b>	Excellent
<b>Rinsability:</b>	Excellent
<b>Flash Point:</b>	None
<b>Biodegradability:</b>	Complete
<b>Storage/Stability:</b>	1 years
<b>Weight Per Gallon:</b>	8.76 lbs. Per gallon
<b>Freeze/Thaw Stability:</b>	Keep from freezing
