Complete Sanitation System

GREEN Button Dilutes @ 1.25 Oz. Per Gallon

RED Button Dilutes @ 4 Oz. Per Gallon

The Refillable Canister has a spring-loaded lid to help maintain moisture. The towels on the 160-sheet roll are made of durable lint-free fiber.

Quick disconnect hoses allow the hoses to be switched back and forth between the 1.25-ounce & 4-ounce dilution for bottle and bucket fill.

The specially designed 1/2 gallon Animal Facility Disinfectant bottle is machined plugged to ensure consistent dilution and eliminate free-pouring.

The dozen labeled spray bottles include 4 ea. Peel & stick labels (Isolation, General, Bird & Cat).

GREEN Button Efficacy	RED Button Efficacy
Avian Influenza A H5N1 virus Avian influenza A H9N2 Avian Reovirus Canine Adenovirus Canine Bordetella (Kennel Cough) Bovine Viral Diarrhea virus Canine Distemper Canine Coronavirus Canine Parainfluenza Virus COVID-19 E.coli Equine Arteritis Virus Feline Calicivirus Feline Infectious Peritonitis Feline Leukemia virus Feline Panleukopenia Feline Rhinotracheitis	Infectious Avian Laryngotracheitis Infectious Bovine Rhinotracheitis Infectious Bronchitis Virus Infectious Canine Hepatitis Virus Murine Parainfluenza virus type 1 Newcastle disease virus Porcine Respiratory Virus (PRRSV) Porcine Rotavirus Pseudorabies virus Rabies virus Ringworm Salmonella Transmissible Gastroenteritis (TGE) Canine Parvovirus (CPV) Minute virus of Mice (Parvovirus) Porcine Parvovirus
