

**Subject: 475-B & 475-B-DELUXE Backpack Sprayer**

**Built to effectively handle bleach solutions**

Proper cleaning and disinfecting of frequently touched surfaces are essential in the efforts to eradicate Ebola and Enterovirus D68. The chemicals and the applicators being used are the most important aspects of cleaning and disinfecting. Solo offers several sprayers that can handle the harsh chemicals needed to properly disinfect hospitals, schools, and common areas. Solo models 475-B and 475-B-DELUXE were engineered to handle sanitizing solutions and are the first backpack sprayers which will spray bleach solutions.

- Diaphragm is made of top quality Tivilon® material to provide outstanding resistance to harsh chemicals
- Viton® seals in key locations ensure long service and durability
- Four-nozzle assortment for multiple spraying tasks: plastic adjustable, fan spray, hollow cone, and jet stream nozzles. In addition to these 4 nozzles, 475-B-DELUXE also includes a professional grade, brass adjustable nozzle
- 28" unbreakable wand with commercial shut-off valve provides excellent reach
- Commercial shut-off valve with lock-on/lock-off feature minimizes user fatigue

**Easier operating shut-off valve with lock-on / lock-off feature** for reduced hand fatigue

**Pull-tabs** for quick strap adjustment

**Deluxe Shoulder Straps** with Waist Belt for greater operator comfort (Model 475-B-DELUXE)

**Large 4.25" Tank Opening** with Filter Basket for easier filling and cleaning (Model 475-B-DELUXE displayed)
